

There are many ways that you can help to make this project a success!

*It takes many splashes...*

### Make a donation

Any amount you would like to give the school for this fund would be gratefully received. Thank you!

**Parsons Heath School pool is over 50 years old. Since it has been open, thousands of Colchester children have learnt to swim in it.**

### Buy a 'Little Splash' plaque

Make a donation in the name of your business, your family or your friends. Their name will be placed on a specially designed plaque — a permanent reminder of the contribution made.

To buy your 'Little Splash' plaque, please complete the application form (attached or available from the school website).

**Cost: £50**

### Corporate sponsorship

Businesses and any other organisations who may be interested in a higher sponsorship level, please contact us directly for information. We'd love to hear from you!

**We need your help to ensure this continues!**

*Your support will help us 'make a splash' in the local area, and be a springboard for the future of these children.*

*...to make a wave*

The safety benefits are significant. Children are often drawn to water, but it can be dangerous and life threatening if they are not trained in water safety.

40% of children in the UK leave primary school unable to swim 25m.

Source: The Swimming Trust

The pool is in desperate need of repair and refurbishment. We are raising funds to repair the boiler and resurface the pool. With your help, local children will continue to learn to swim, an important lifesaving skill, as well as continue to learn about active lifestyles and achieve better health outcomes.

Whether a beginner or an experienced swimmer, a school swimming pool allows every child to enjoy access to a sport which for many is financially restrictive.

**1 million children in the UK are unable to be safe in and around water.**

Source: The Swimming Trust

As well as being able to offer swimming easily as part of the curriculum, a school pool also offers the students an opportunity to participate in after school extracurricular activities.
