14th September 2018

Dear Parents/Carers/Guardians,

As your child is in Year 5 or Year 6, they will have access to an online learning tool called Mathletics. It is a programme designed to support them in mastering the maths objectives for their year group. There are a variety of tasks and games for your child to try and they are all linked to concepts that we will be learning in class.

To log on to the website please go to <https://community.mathletics.com/signin/#/student>
From there, your child will be able to enter their username and password. Your child will be given their username and password in the coming days so please look out for it. It will be stuck in the back of their reading records.

We hope that you and your children enjoy this resource and find it helpful in supporting your children in their learning at home.

Yours faithfully,

Mrs A V Newman
